Bonds for Safety Improvements, School Renovations and Preservation of Facilities

Question 20 words which plainly phrases the chief purpose of the measure.

Shall Bend-La Pine Schools improve safety and renovate schools and classrooms by issuing \$249.7 million in general obligation bonds? If the bonds are approved, they will be payable from taxes on property or property ownership that are not subject to the limits of sections 11 and 11b, Article XI of the Oregon Constitution.

Summary 175 words which concisely and impartially summarizes the measure and its major effect.

Thanks to retirement of existing bonds, approval of this bond measure is expected to maintain the current tax rate, rather than increase it. Approval will help sustain jobs in our communities and support safe, healthy teaching and learning environments by:

- Protecting community investments in schools through repairs, maintenance and preservation of existing buildings district-wide including the replacement of aging roofs, inefficient, heating and ventilation systems and making energy saving improvements.
- Making district-wide safety upgrades including classroom locking systems and fire life safety systems.
- Modernizing aging classrooms including replacing the oldest and most inefficient buildings at Bend Senior High School. Adding instructional spaces and equipping and furnishing schools and other district facilities.
- Financing other capital costs for the district and paying bond issuance costs.

If bonds are approved, the State will provide an \$8 million matching grant. Bonds may be issued in series; each maturing within 25 years from issuance.
